#### Responses (5 of 20)

one of the best professors I've ever had. period.

I think balancing presentation classes with work in class classes was beneficial because it was nice to have time in class to ask questions and make progress. I think that presenting as much as we did definitely helped my communication skills, because by the end of the semester, I was not nervous to present at all.

I thought the way the projects and assignments were so thoroughly outlined was very helpful

This was one of my favorite courses this semester. The professor really made it exciting and educational. I never felt discouraged and always had constructive criticism given at every class.

A lot of the class time in the beginning of the semester was taken up by project presentations which I don't think was necessary for the first parts of Project A. Also, I wish the professor had more experience with the programs we were working with. I asked him a few questions about how to do things and he did not know the answers.

### Essay Responses for ART307010 for 2019 Spr (2193)

#### Question ID: 2819

What was the most interesting or important assignment or aspect of this course and why is this a benefit to you?

#### Responses (5 of 20)

I loved the amount of in-class time we had to work on our assignments and ask Kris questions. it was really beneficial because we're all busy so we really appreciate that time.

I think that making personas was very helpful because as a designer, you design for a user ALWAYS! It was great to continue to learn how to make a persona and design for that. I also think that being able to go from wireframe to prototype was helpful because the wireframe, if done right, serves as a nice foundation for a good app.

I would say the most interesting part of this course was learning about the process behind the decisions you make design-wise

UX/UI

I enjoyed Project B, where we got to create our own app. It was the project that I spent the most time on and allowed me to be the most creative.

### Essay Responses for ART307010 for 2019 Spr (2193)

#### Question ID: 2820

If there were aspects of this course you would change to improve the course, please describe what these changes would be.

#### Responses (5 of 20)

Nothing

I would incorporate creative exercises to open our minds if possible. I think that sometimes, as students, we can become close-minded when there is a deadline so I think small 10 minute exercises would be helpful.

I would love to have learned how to properly showcase UI/UX work if we wanted to put it in our portfolio.

Strictly art students

Maybe teach a little bit of Adobe Creative apps for people that do not have experience with them. Also spend less time presenting and a little more time teaching.
